### Connecting the Physical World to the Electronic World

NeoMedia Technologies has a suite of six issued patents covering core concepts behind our techniques for linking the physical world to the electronic world. These patents cover various linkage methods including

- Barcodes
- RF/ID
- Mag Stripe
- Voice
- Other machine readable and keyed entry identifiers

The text of NeoMedia's patents can be viewed on the US Patent and Trademark Office web site by using the following links:

Number	Title
<a href="#">5,933,829</a>	Automatic Access of Electronic Information Through Secure Machine-Readable Codes on Printed Documents
<a href="#">5,978,773</a>	System and Method for Using an Ordinary Article of Commerce to Access a Remote Computer
<a href="#">6,108,656</a>	Automatic Access of Electronic Information Through Machine-Readable Codes on Printed Documents
<a href="#">6,199,048</a>	System and Method for Automatic Access of a Remote Computer over a Network
<a href="#">6,434,561</a>	Method and Systems for Accessing Electronic Resources via Machine-Readable Data on Intelligent Documents
<a href="#">6,542,933</a>	System and Method of Using Machine-Readable or Human-Readable Linkage Codes for Accessing Networked Data Resources

In addition, NeoMedia has numerous other patent applications pending in this area.

### Secure Source Technologies

As part of its acquisition of Secure Source Technologies, a provider of security solutions and a pioneer in covert security technology for the manufacturing and financial services industries, NeoMedia gained a suite of seven additional U.S. and Canadian patents as well as other Intellectual Property. A broad range of companies, including Bayer AG, ESPN, American Cyanamid, Bank of Taiwan, American Express, Republic Bank, J.P. Morgan Chase, and others have already licensed, paid fees or royalties for use of the patents or have purchased products incorporating these patents and IP.

The text of the U.S. patents can be viewed on the US Patent and Trademark Office

web site by using the following links:

<b>Number</b>	<b>Title</b>
<u>4,588,211</u>	Machine readable document
<u>4,634,148</u>	Negotiable Instrument
<u>4,724,309</u>	Machine readable document and method for processing
<u>6,089,610</u>	Security document
<u>6,315,329</u>	Methods for detecting fraudulent instruments
<u>6,530,601</u>	Security system
